

Name: _____

Date: _____

Build a Biome Specific Food Web

You will be assigned a specific biome (temperate forest, taiga, tundra, rainforest, desert, grassland/savannah) to build a food web for. We will be going to the computer lab to do research to help you fill out your food web. For the Biome, research the average rainfall, average minimum, and average maximum temperature. Before you build your food web, fill in the blanks below with species found at each trophic level that you will use in your food web. Draw your food web on the back of this worksheet and turn in when you are finished.

Biome: _____

Avg. Rainfall: _____

Avg. Min. Temp: _____

Avg. Max. Temp: _____

Primary Producers: 1. _____

2. _____

3. _____

4. _____

5. _____

Primary Consumer:

1. _____

2. _____

3. _____

4. _____

Secondary Consumer: 1. _____

2. _____

3. _____

Tertiary Consumer:

1. _____

2. _____

Quaternary Consumer: 1. _____
